

TRAINING DIVISION
YOUR FIRING SOLUTION

ABTD - Effective Long Range Course July 19th - 21st

The Effective LR course concentrates on providing shooters with a wind estimation and external ballistics package. Course elements focus on alternate firing positions, effective employment of AB Solvers, and the practical science of long-range external ballistics. AB Trainers build on the shooters' ability to judge wind conditions and effectively engage targets using alternate positions. Push your abilities and weapon platform to consistently bang steel past 1200 yards..... **\$1,100**
