

Ringneck Ranch Airstrip (55KS)

122.75 CTAF

(Multi-Com freq. for private strip.)

The airstrip is now displayed on air navigation maps. It is not in most IFR GPS databases. Use is at pilot's risk.

Obstacles:

- 50 ft tall power poles that run 145 ft. parallel to the right side (east) of approach to runway 36
- Diagonal tree line and large building on the east side of the south end of the runway can cause erratic air movement (with SE wind).
- Beware of vehicles, farm machinery, domestic and wild animals, and other possible obstacles on runway.
- Airstrip is 2.5 m S, S/E of Tipton. Elevation is 1586 MSL with 800 ft. terrain 1.5 m. east and 800 ft tower on high terrain 4 m NE.
